

Lifestyle-Based Group Medical Visits (GMV), 2024 Summer & Fall!

Integrative Health group visit appointments at Hennepin Healthcare are a fulfilling way to approach your care with a focus on health and well-being from a holistic, integrative, functional medicine perspective. Sharing these appointments among a community of people can result in more confidence, supply more time for questions and dialogue, build upon self-care, and learn new mind-body skills practices to enhance your “one-on-one” patient-provider visits. The integrative providers at Hennepin Healthcare offer group visit series on topics where you can take part in a new way of taking charge of your health and gain support for your well-being.

Ear Points for Managing Pain, Anxiety and Stress Drop-In's | Sue Haddow, MD | Stefanie Stevenson, MD

Battlefield Acupuncture in both ears with small needles, or beads is combined with a teaching and a mind-body skill practice for health and wellbeing. Morning and afternoon in-person options available.

Weekly on Tuesday mornings: September 17 – December 17, 2024, from 10:30 – 12:00 pm

Weekly on Tuesday afternoons: July 2 – December 17, 2024, from 1 – 2:30pm at Whittier Clinic.
