

Nutrition, Physical Activity, and Stress Reduction

Through 6 sessions, learn skills to prevent disease and live healthier with chronic problems like:

- Diabetes
- High blood pressure
- High cholesterol
- Heart disease
- Metabolic liver disease
- Obesity

In a group setting, get motivated about:

- Physical activity
- Food groups
- Meal planning
- Reducing stress
- Mindful eating
- Sleep

How do I get started?

Talk to your provider to get a referral for the “Healthy for Life group medical visit.”
